PROPERTY & SIGNAGE

At PP Graphics we are the **masterminds** of graphics and printing.

With over 40 years of experience, we don't just print; we craft bold, memorable brand stories through visuals that captivate and resonate. From our Manchester headquarters, we serve clients across the nation, amplifying your brand with unmatched precision.

Our reputation speaks for itself, driven by our skilled team who ensure flawless finishes in every environment. We're not just about delivering; we're about delivering awe-inspiring results every single time.

Meet the

Our team of print professionals is the backbone of PP Graphics, and they've earned their exceptional reputation through years of experience and a relentless commitment to excellence. Each member brings their unique skills and knowledge to the table, creating a powerhouse of creativity and technical expertise.

They approach each project with unmatched passion, treating it not just as work, but as an opportunity to push boundaries and craft something truly extraordinary. Their dedication to quality is evident in every detail, from the initial concept to the final installation ensuring that no matter the challenge, they deliver results that exceed expectations.

Whether it's finding innovative solutions to complex printing challenges or providing personalised service, our team's drive and commitment to perfection ensures that your brand always stands out.

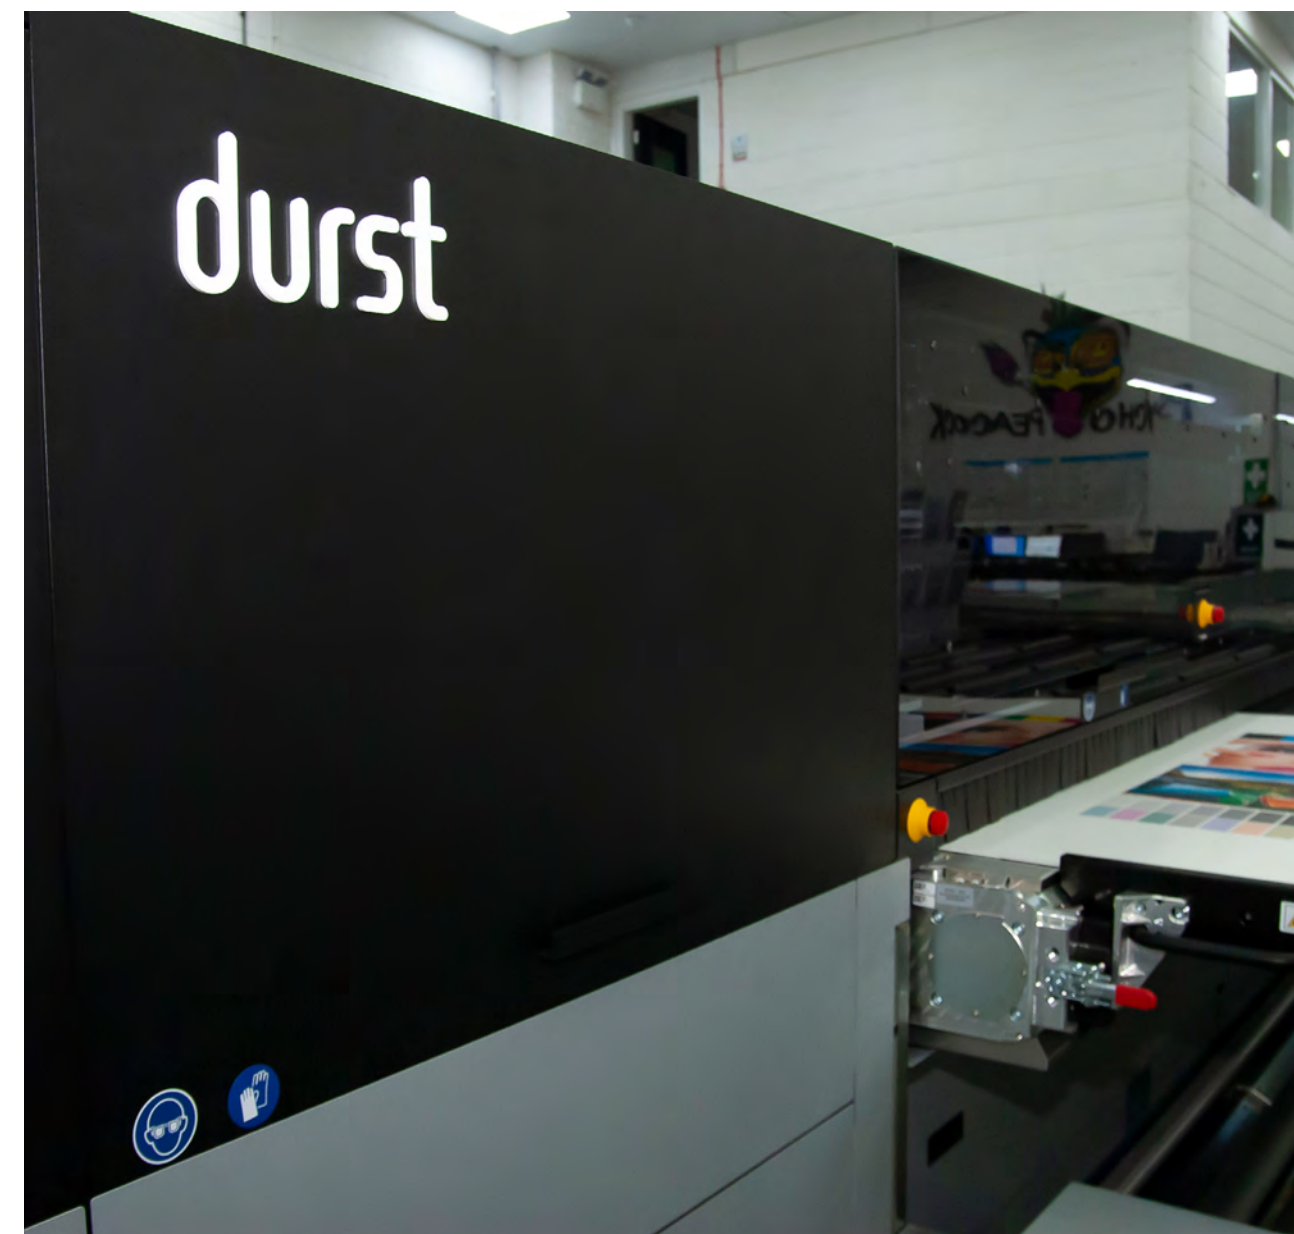

Our Gear

We're equipped with the latest, cutting-edge technology to push the boundaries of print.

Our two Durst roll-to-roll print engines, along with the Canon Arizona flatbeds and Colorado roll-to-roll printers, allow us to deliver exceptional results at scale.

Plus, we're now exploring new horizons with dye-sublimation printing on our P-Tex iSub machine.

CASE STUDIES

DOWNING CONSTRUCTION

We recently delivered a striking, bespoke signage installation to showcase Square Gardens in the heart of Manchester, on behalf of Downing Construction.

Positioned in high-footfall locations, the **printed dibond panels** feature bold graphics designed to maximise visibility and create immediate impact. A **premium gloss finish** enhances the overall look, reflecting the prestige and quality of the Square Gardens development.

A variety of sizes and visuals were used to add depth and personality, capturing attention from every angle. While each design was unique, a consistent colour palette, font style and floral subject ensured a cohesive and professional finish.

PRESTON TRAIN STATION

We love working within our local communities and this wall mural at Preston Train Station is a perfect example!

Bold, vibrant and visually engaging, the installation celebrates everything that makes Preston unique by showcasing key cultural and community-inspired visuals. The artwork forms part of a wider series of creative enhancements across the area.

Blending creativity with precision, we delivered a striking **printed wall vinyl** with a **lamine finish** designed to engage, inspire and leave a lasting impression.

MANCHESTER OPERA HOUSE

This bold vinyl refresh for Manchester Opera House brought the excitement of Moulin Rouge to life on Oxford Road.

Designed to stand out among the hustle and bustle of this busy location, the installation captures attention with vibrant, high-impact visuals.

A series of strategically placed graphics ensures maximum visibility and engagement from every angle, creating a **striking promotional presence** for the show.

MRS CHIPS

Standout shopfronts are a great conversation piece that attracts potential clients, which is exactly what we did for Mrs Chips.

Using **individual Dibond panels** to create a custom-fit look, we refreshed the shopfront. Featuring a newspaper-inspired design to reference traditional chip shop heritage, we helped position the brand as trustworthy and authentic.

The installation integrated a **lamine gloss finish** and incorporates key contact details for maximum visibility. The logo pops against the monochrome background, ensuring it stands out from a distance. To complete the transformation, branded glass vinyls were added, creating a cohesive and impactful finish throughout.

MANCHESTER VETS

PP Graphics installed **external vinyl graphics** across the Manchester Vets building to support clear and effective wayfinding. These durable vinyl applications help visitors navigate the site easily while reinforcing the brand throughout the outdoor environment.

Inside, **frosted vinyl logos** were applied to glass surfaces, providing privacy while subtly showcasing the Manchester Vets brand. These discreet branded touches add style and function, enhancing the overall atmosphere.

Together, these external and internal graphics create a consistent and welcoming experience that supports both practical needs and brand visibility across the estate.

DW MOTORS

PP Graphics delivered a **full suite of Dibond signage** for both the exterior and interior of the venue. Installed directly onto walls, the signage provided a clean, durable way to carry brand visuals consistently throughout the entire space.

Externally, the Dibond panels offered a weather-resistant, long-lasting solution for wayfinding and identity signage. Internally, the same material helped maintain a cohesive look, guiding visitors and reinforcing brand presence across key areas.

All signage was completed with a **lamine gloss** to convey professionalism.

DROYSDEN MOT CENTRE

We delivered a **full storefront takeover** for Droylsden MOT Centre, transforming the exterior into a bold, professional and highly visible brand statement. The installation highlights key contact details and core services, making it easy for passing customers to understand exactly what's on offer immediately.

Using Droylsden's brand colours and logo throughout, the signage maintains strong visual consistency while reinforcing brand identity. Four different **Dibond panel** sizes were utilised to add variety and visual interest, ensuring the storefront captures attention from afar.

The result is a clean, bold and impactful front that enhances appeal and strengthens the business's presence within the local area.

METQUARTER LIVERPOOL

We had the pleasure of delivering a **full suite of versatile graphics** and visuals at Metquarter Liverpool. Our challenge was to create graphics and signage solutions for a variety of shops and restaurants within the same building, while ensuring each one stood out and reflected its own unique brand identity.

To achieve this, we installed a range of **glass and printed vinyls** in different colours, sizes and styles, carefully tailored to each brand. Some features were even applied externally, maximising visibility and helping attract attention from outside the building.

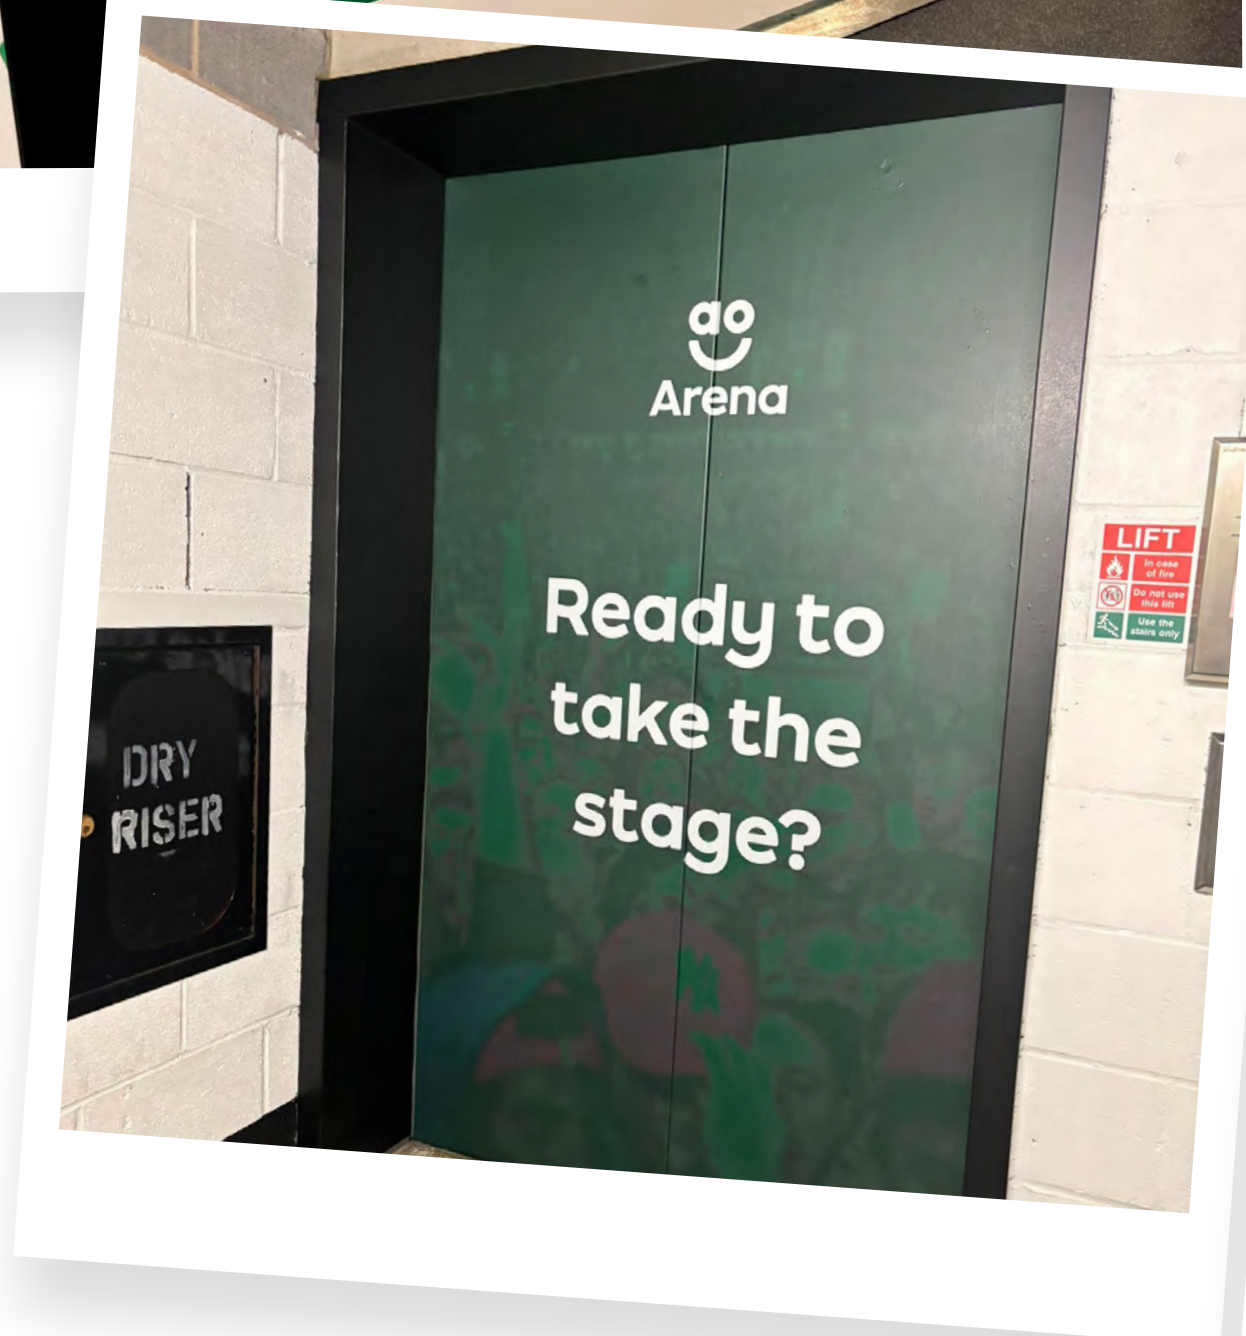

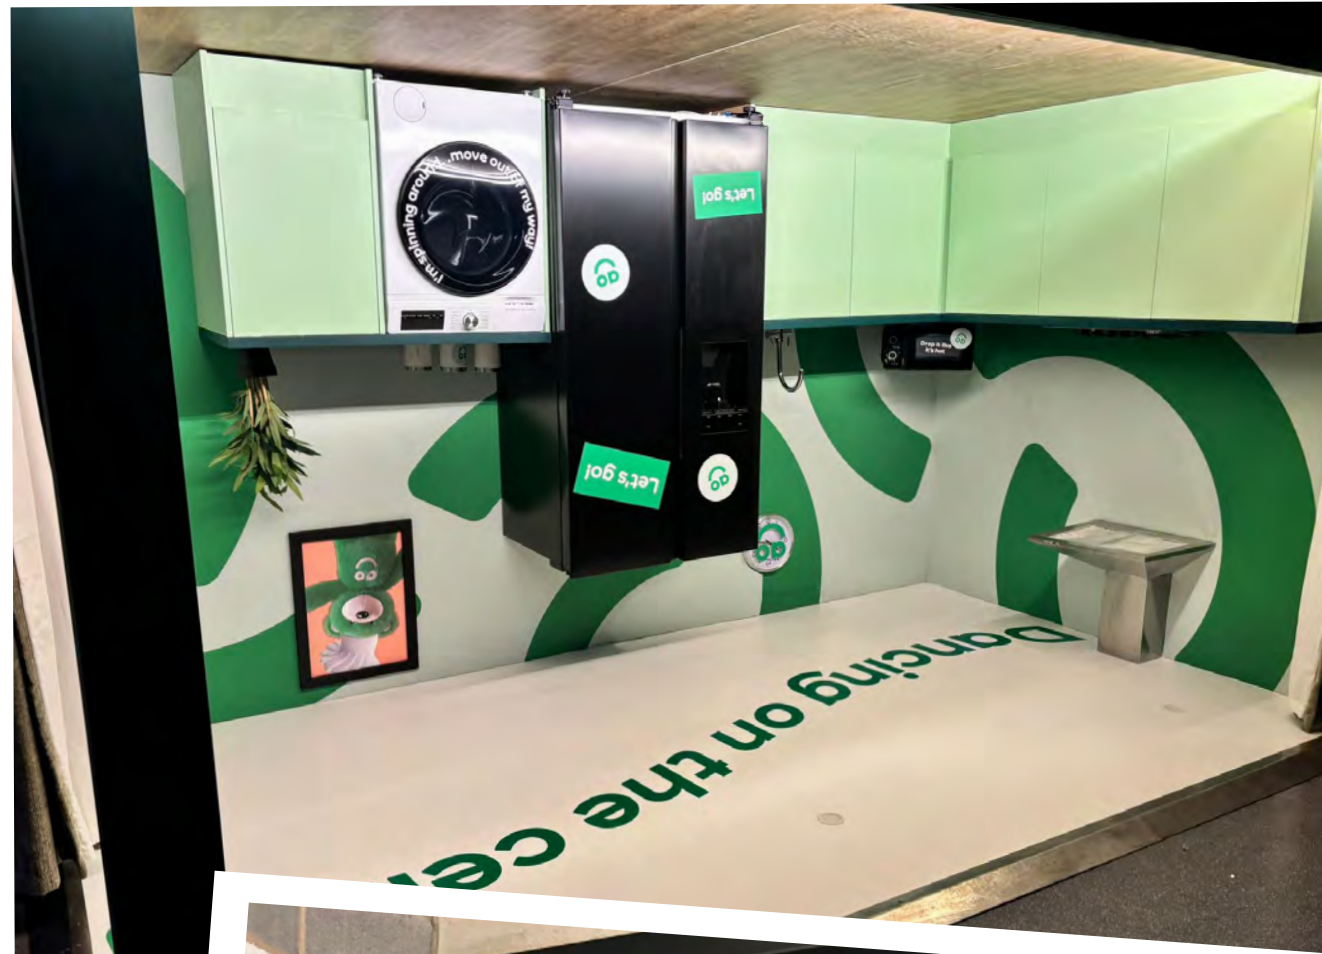

AO ARENA

We delivered a **cohesive suite of signage solutions** at the AO Arena, ensuring the space felt unified and consistent throughout. Every element was carefully considered, from elevators and water refill stations to photo opportunities and upsidedown rooms.

Different shades of AO's iconic green were used throughout the space to reinforce brand identity, while bold graphics helped attract attention and guide visitors with ease.

Floor vinyls, printed vinyl wraps and printed ACM panels were integrated throughout the space, creating a seamless visual experience for attendees.

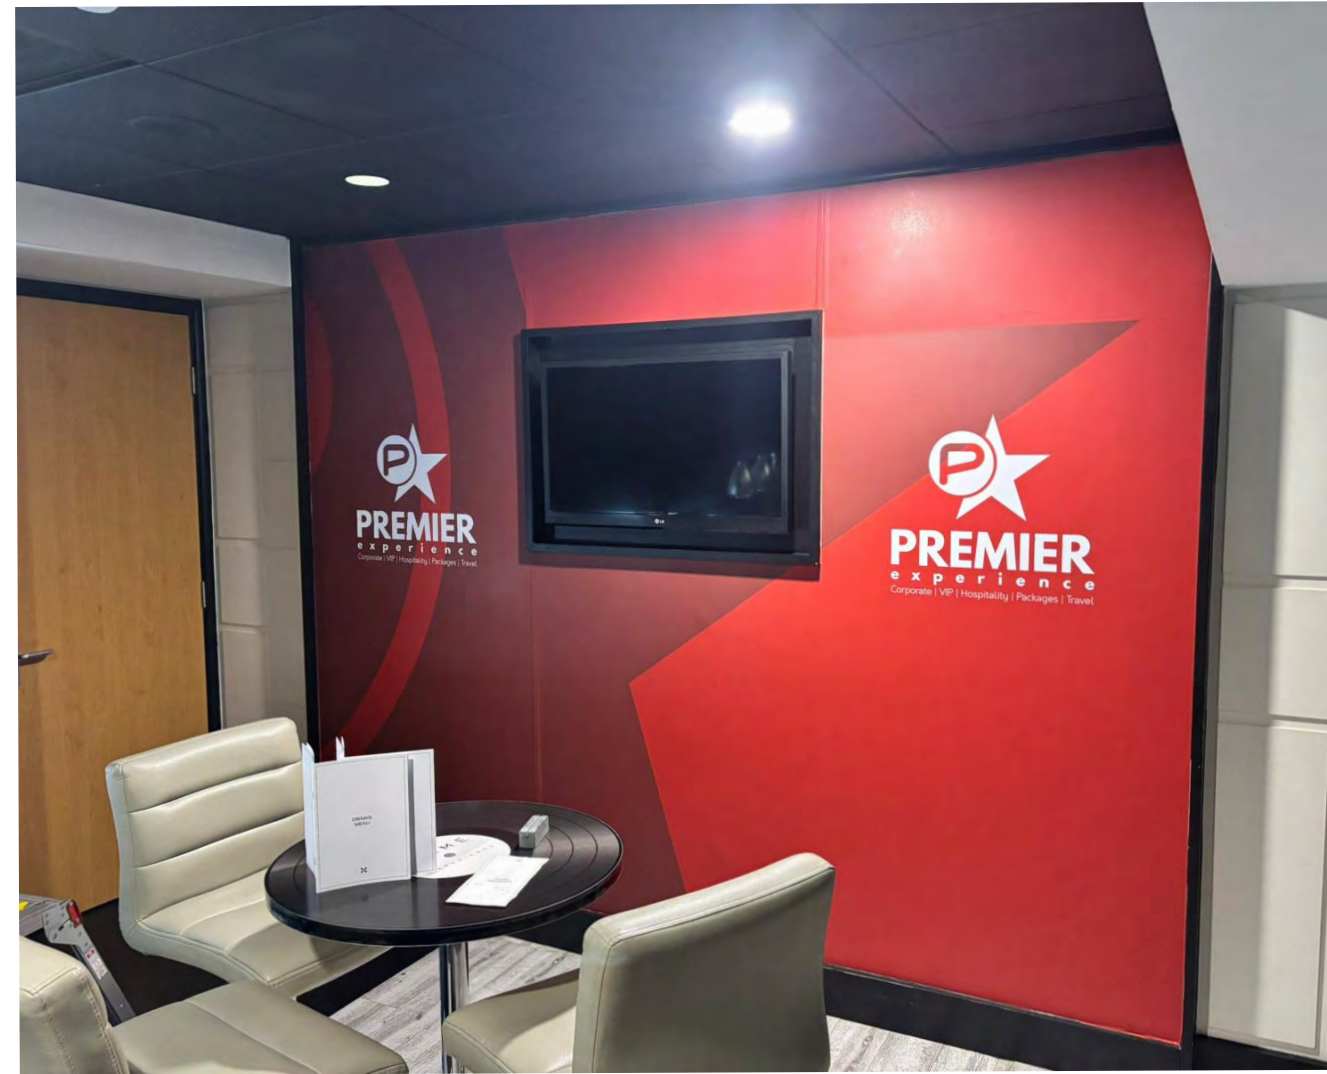

AO BARS

We created and installed **glass vinyls**, **panel graphics** and **foamex hangers** for AO Bars, to fully maximise the space with impactful visuals.

Directional signage ensured attendees could easily navigate the venue, while drink options were clearly highlighted through foamex hanger signage. **QR codes** were printed and incorporated into the graphics, creating a more interactive element and communicating the ease and convenience that AO Bars provides.

Each element was unified through the use of three core colours black, gold and white, helping to convey a sense of luxury and professionalism throughout the space.

AO SUITE BOXES

We produced **custom-cut graphics** for the AO Suite Boxes, ensuring the **large-format prints** fit the space perfectly. The design and cutting process carefully accounted for the placement of the TV screens, ensuring that no elements overlapped or disrupted the layout.

Maintaining a high standard of quality was essential, as these visuals are immediately seen when entering the room. To achieve a strong visual impact, bold colours were used throughout the designs, making the graphics both striking and unmissable.

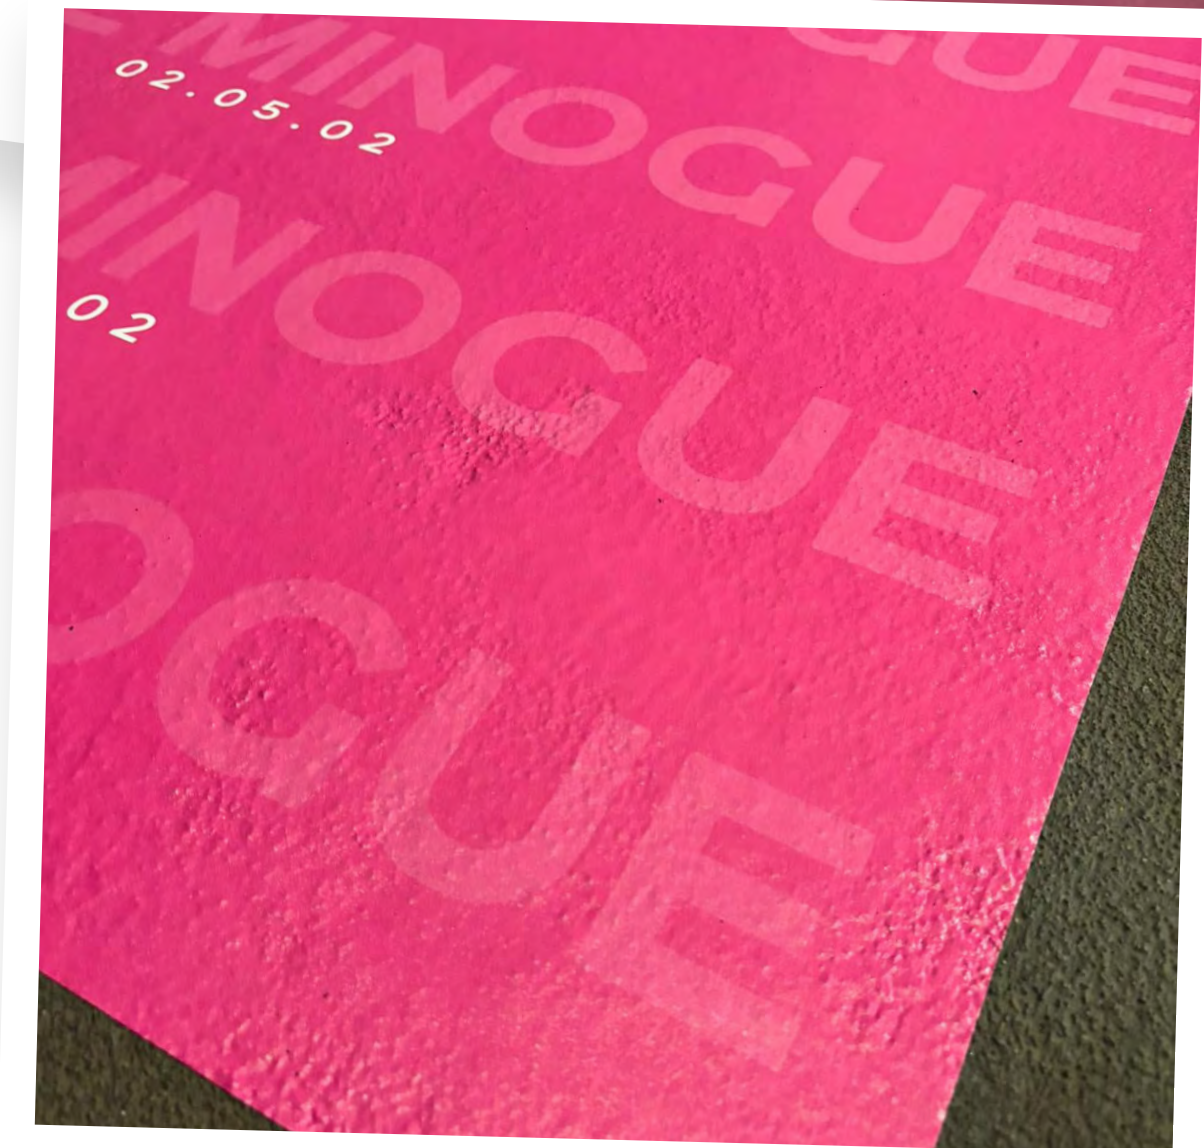

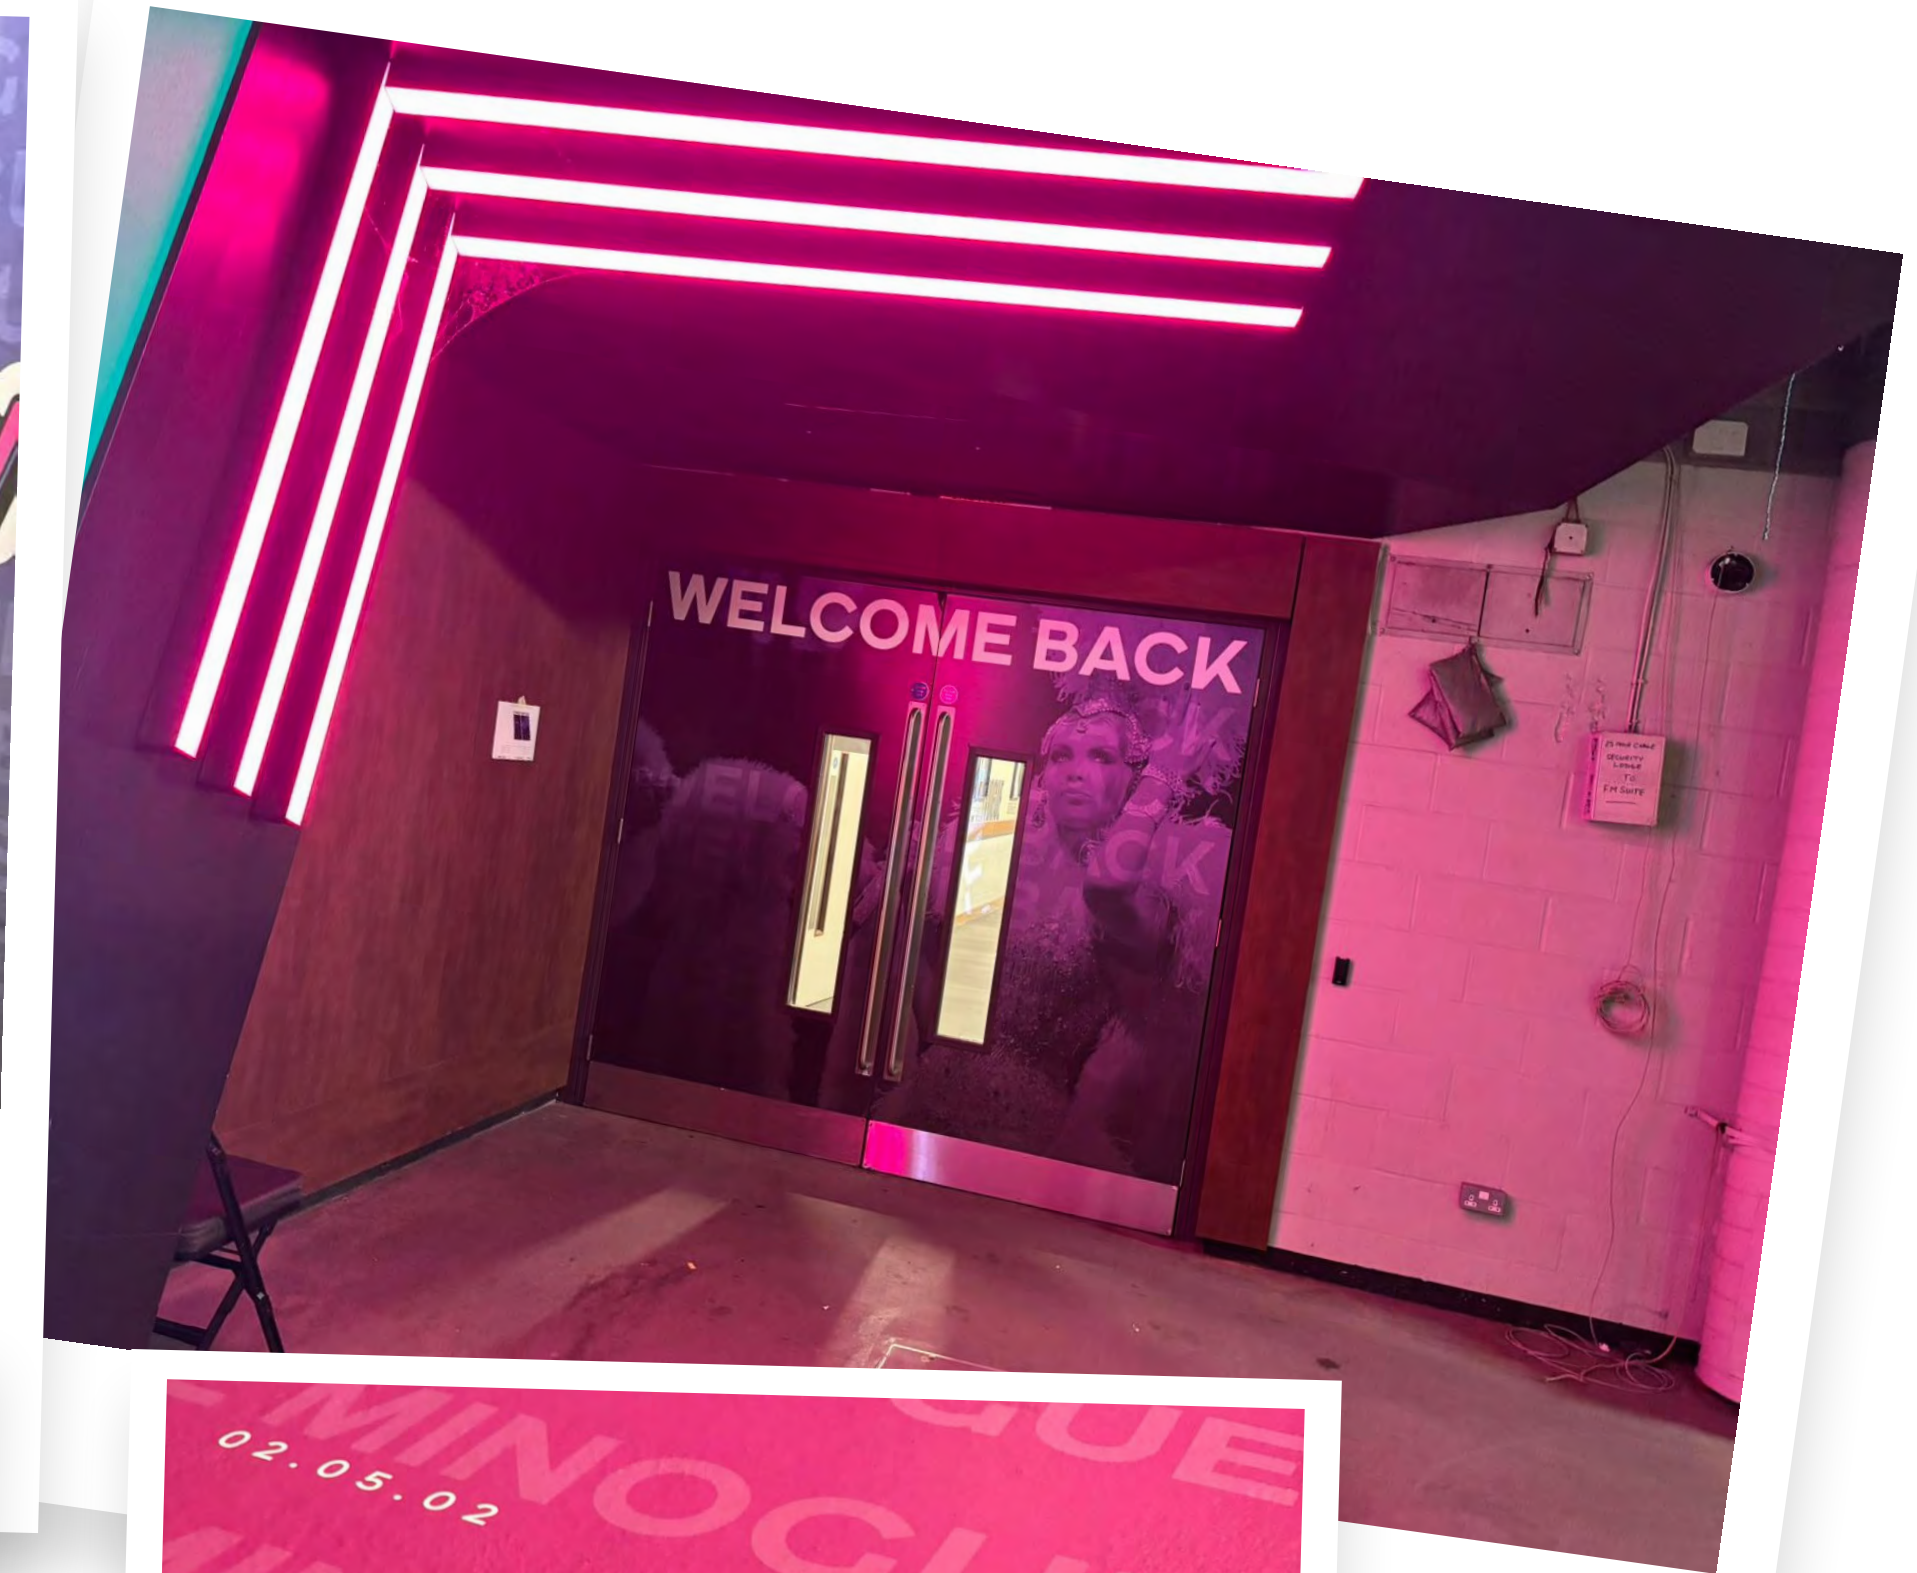

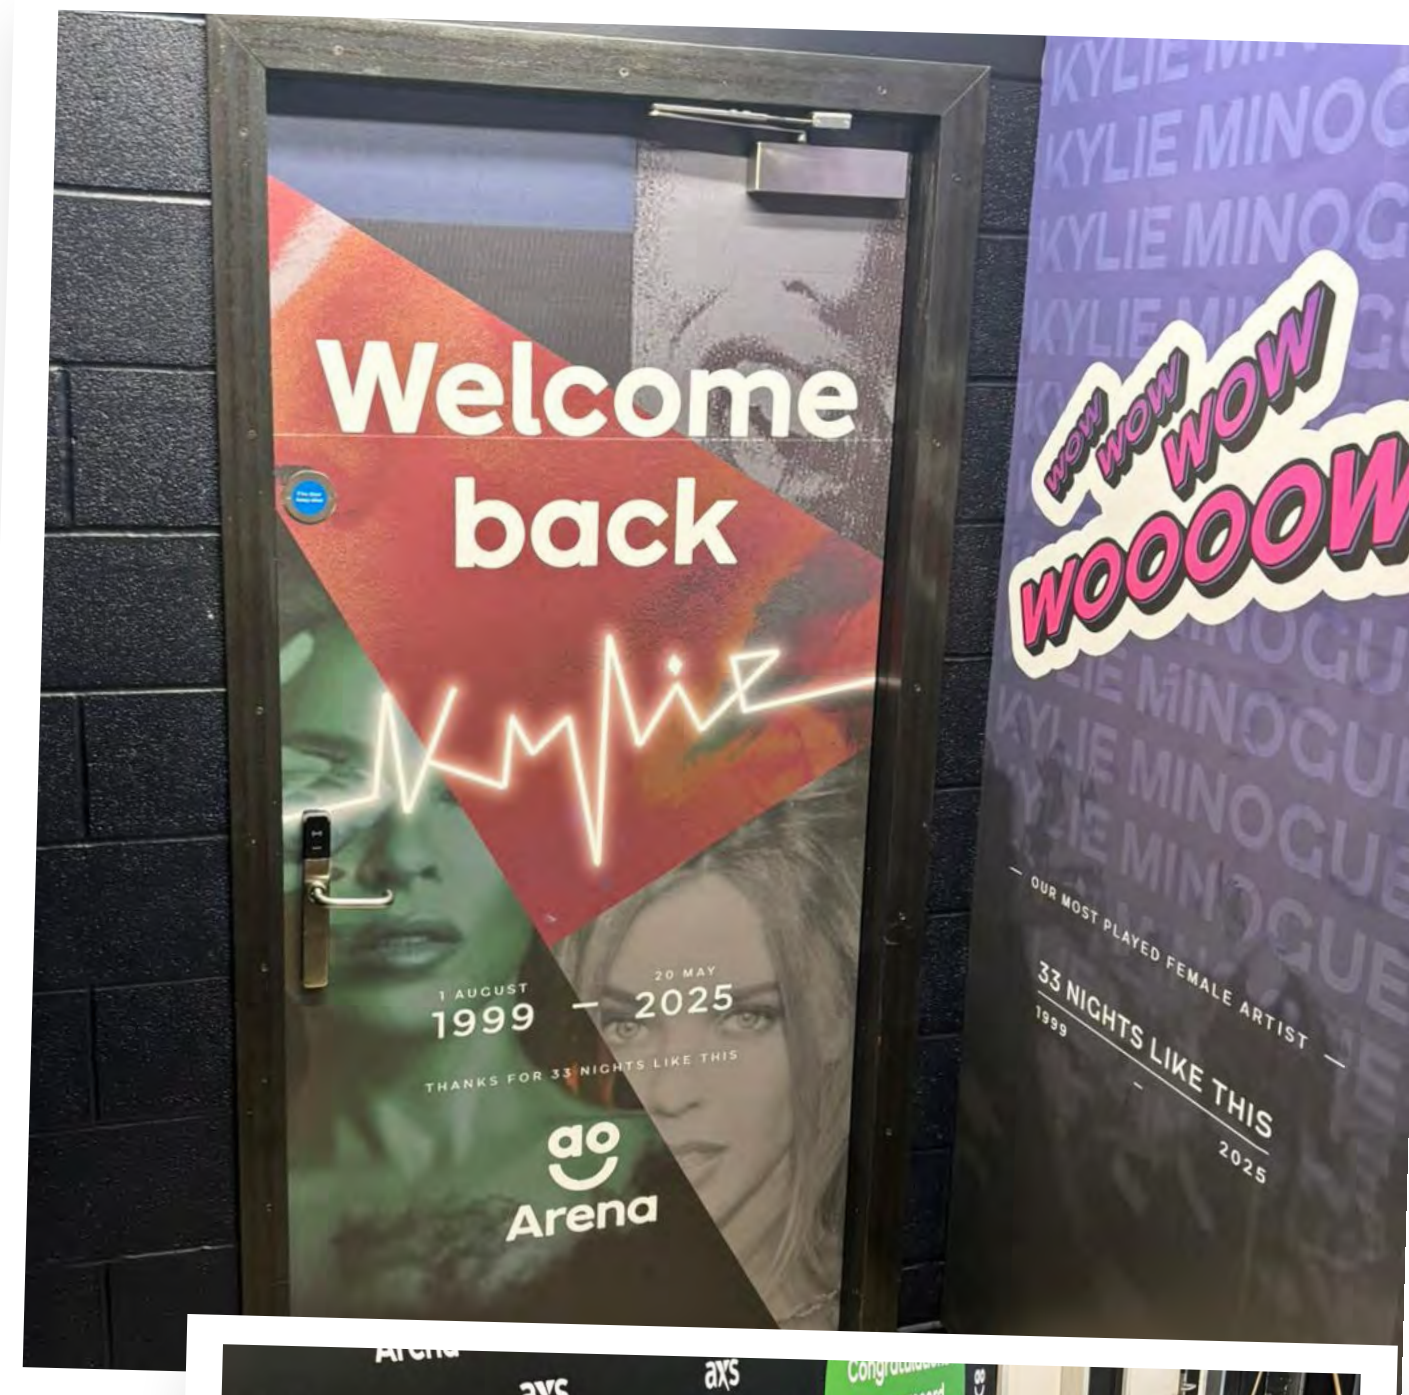

KYLIE MINOGUE

We created this iconic suite of graphics for Kylie Minogue's show at the AO Arena in 2025.

Every possible surface was considered for branding, including the walls, doors and even the floor. A variety of materials were used throughout the installation to introduce different textures and finishes, adding depth and visual interest to the space. This included **textured floor vinyl**.

Each door featured **custom-cut vinyls wraps** to ensure a precise fit - carefully accounting for areas that could not be covered, such as handles and fixtures.

Accreditations

We are proudly accredited by both ESSA and FESPA for our commitment to sustainability, demonstrating our dedication to eco-friendly practices and responsible production processes. These prestigious accreditations serve as a testament to

our relentless pursuit of reducing environmental impact while maintaining the highest quality standards.

Our very own Sustainability Champion, Andrew McIntyre, was shortlisted at the AEO People's Awards 2025.

This recognition highlights our ongoing efforts to lead the charge in sustainable practices within the print industry. It's not just about what we do; it's about how we do it and we're committed to doing it in the most sustainable way possible.

MISSION STATEMENT

STEVE COMAR
CEO

As a company, sustainability is deeply embedded in our business and practices. Our commitment to sustainable progress drives us to continually review and evolve how we operate, placing environmental responsibility at the forefront of our approach.

Improving sustainability within the print industry is a critical priority, and we believe all stakeholders must play an active role in driving change. We are dedicated to leading by example—adopting eco-friendly materials, reducing waste, and optimising our production processes—to help shape a greener future. By fostering a culture of continuous learning and innovation, we aim to set new sustainability standards and inspire positive action across the industry.

Sustainability is central to our approach, influencing every decision we make and every product we create. Together, we can make a lasting impact.

SUSTAINABILITY GOALS

01 WASTE MANAGEMENT

We collaborate with ACM, a trusted partner, to dispose of and recycle as much material waste as possible, reducing landfill impact.

02 SUSTAINABLY SOURCED MATERIALS

We source local suppliers that offer environmentally friendly resources.

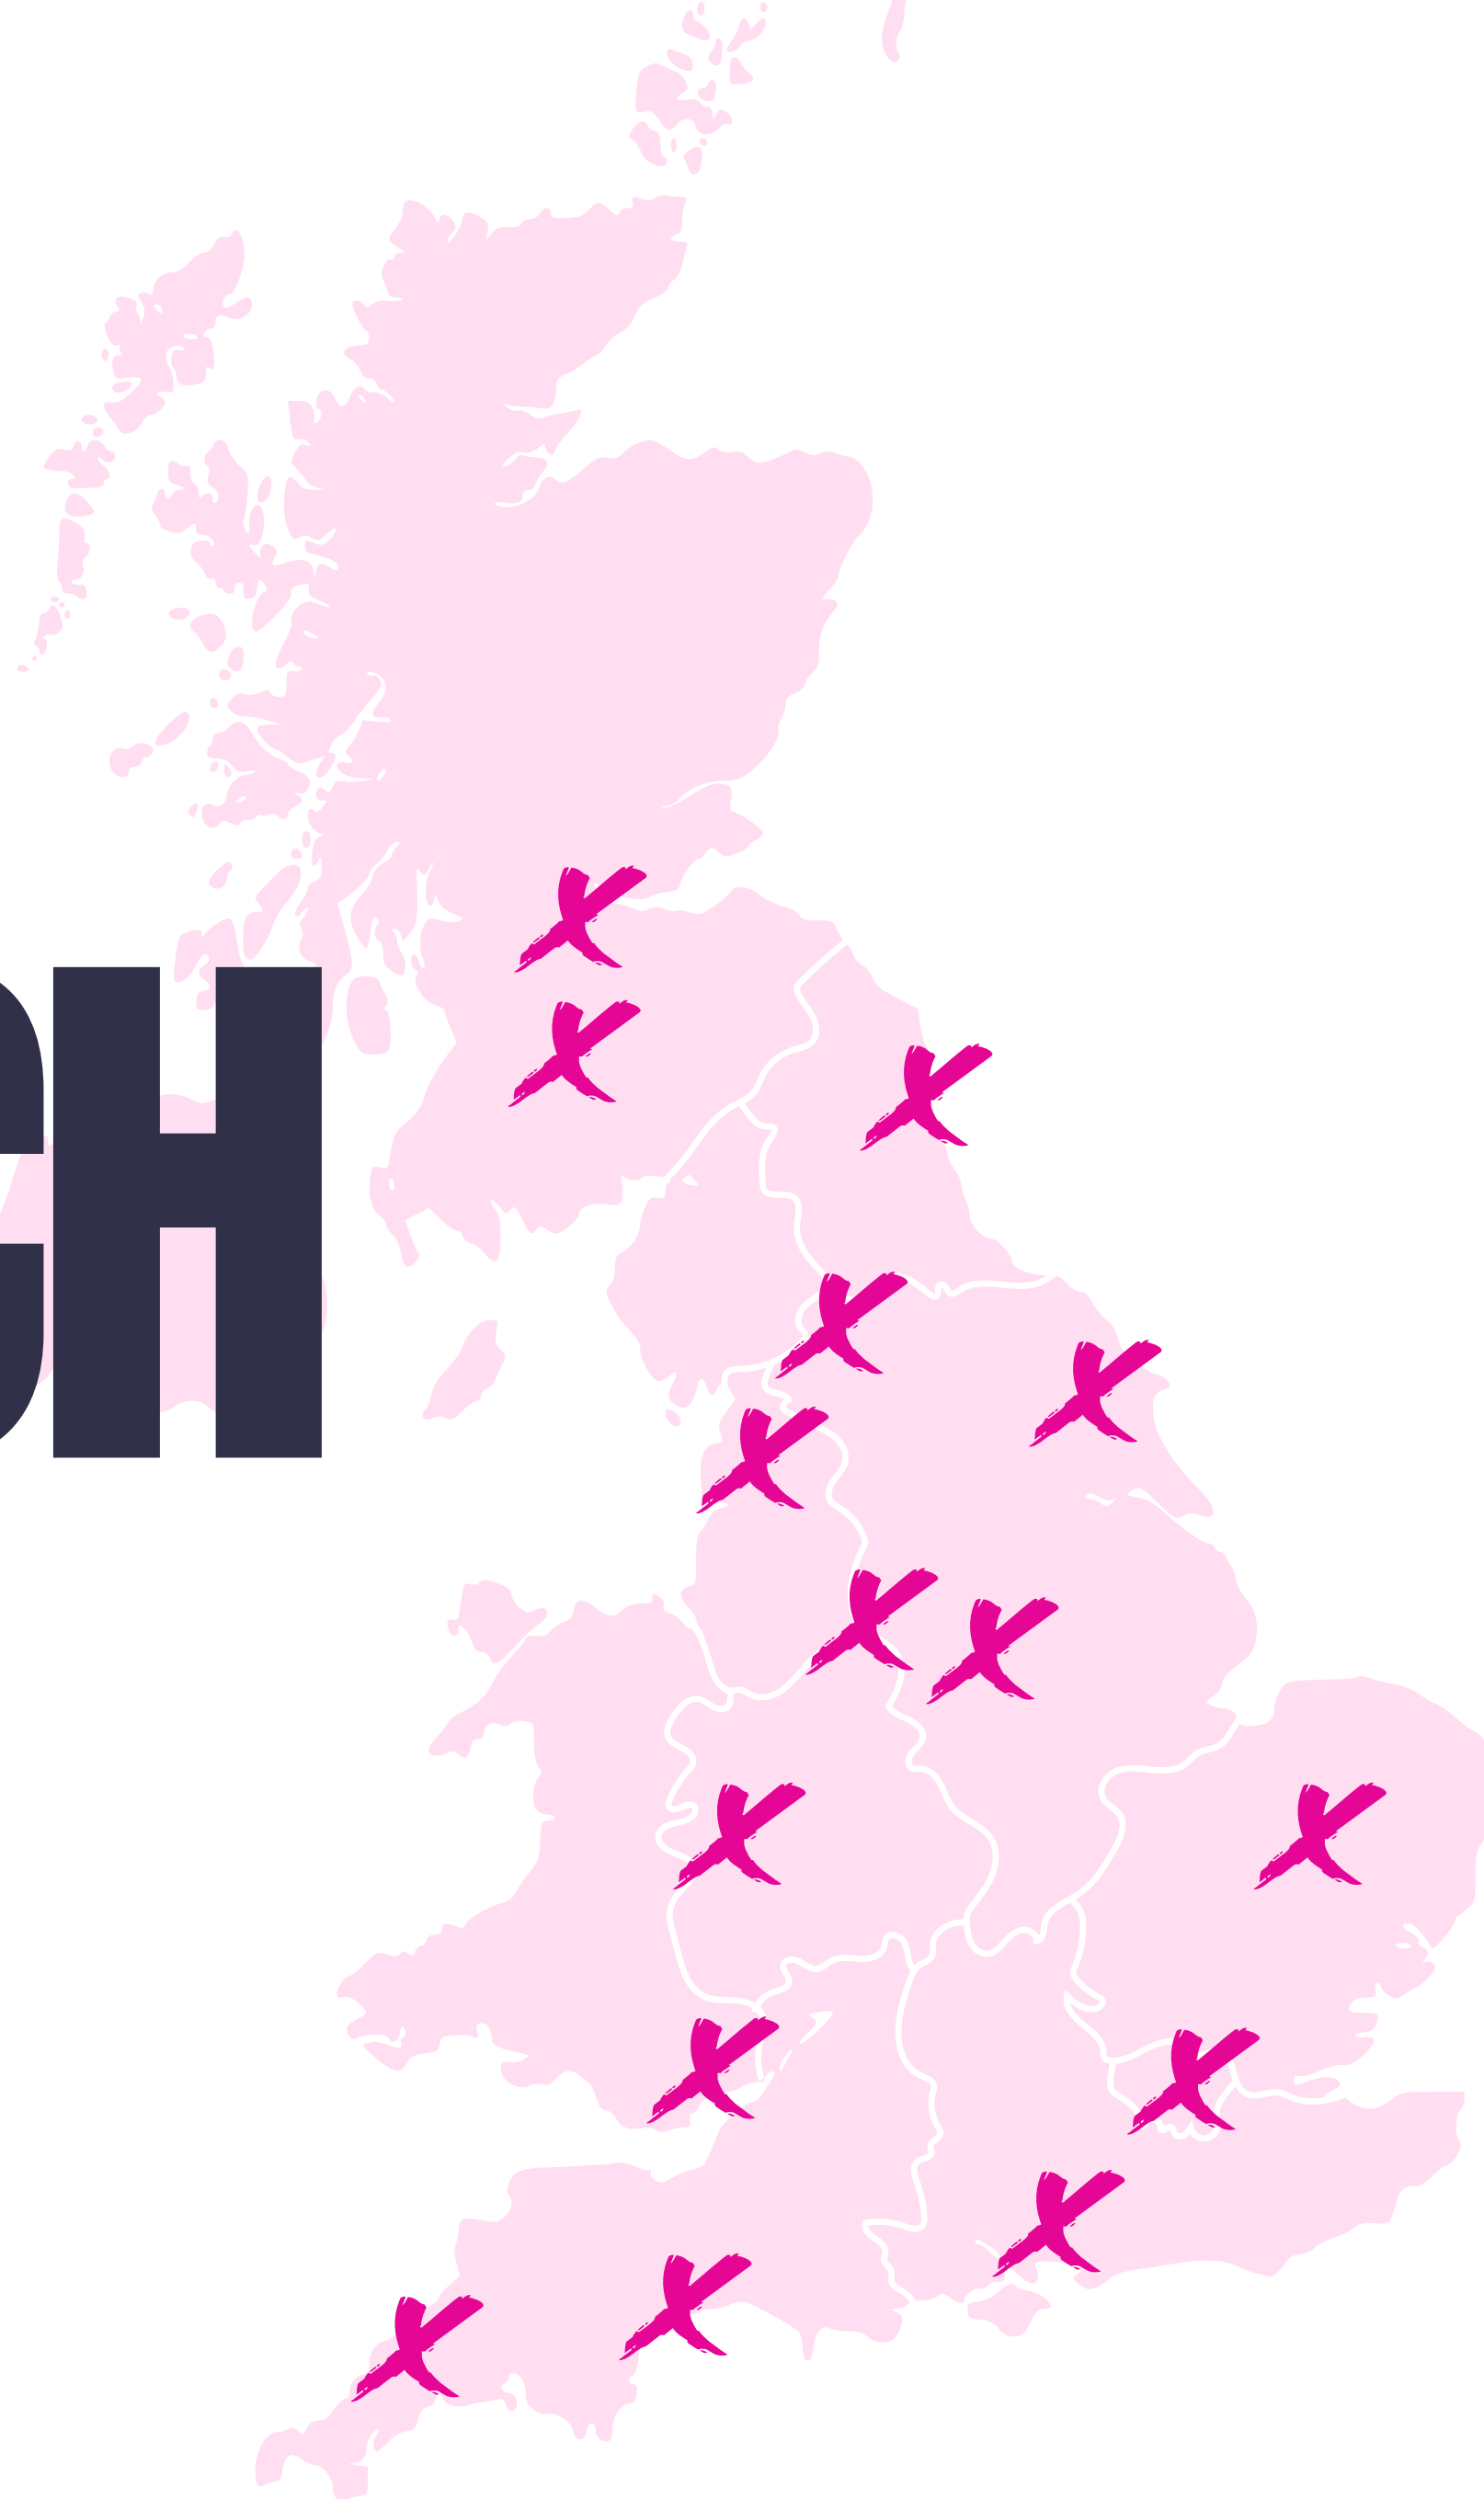

03 CARBON NEUTRAL GOAL

Our energy aim is to be carbon neutral across scope one and two by 2035.
